NOT A FAN

ABOUT ME

I graduated from Maryville College in 2009 with a BA in Child Development and Elementary Education. I taught Pre-Kindergarten and Kindergarten for a combined 3 years before stepping into a Leadership role where I served as Education Coach and then Director of Operations for another 7 years at a Private Preschool. From there I began my Homeschool Momma-Teacher Journey with my 4th grader. Together we have un-schooled, re-schooled, and worked together to find a personalized learning path. Along that Journey CCA became home for my son and I became involved through subbing.

I aim to create a classroom that fosters: faith, growth through challenges, success and acceptance. We will become English Detectives and build a solid foundation for future grades through practice, trial and error and triumph!

My husband and I have a 15 year old daughter who loves dancing and a 9 year old son who loves baseball and drumming. We are a military family who proudly says, "Go Army!" We also have a Golden Retriever named, "Dolly" and a Ragdoll Calico cat named, "Penny."
