SUSIE BROOKS

Jan 11

BIO:

It is not uncommon to see Mrs. Brooks walking around CCA with a bowl of bones or a bug she picked up outside during lunch. She loves biology, and nature is one of her primary connection pathways to God. She enjoys teaching physical science and chemistry too, but biology is her favorite! Nothing points more to God than the complexity and beauty of creation.

She is married and has two daughters that graduated from CCA. She left an 18 yr career as an environmental scientist in Oak Ridge in 2010 and came to CCA to teach and serve as the guidance counselor. When God called her to this position, His message was clear "I'm sending you there to love students, to help them know Me, and to get them ready for college or careers."

"It is the best job ever!" - Susie

THINGS I PREFER "NOT" TO RECEIVE AND/OR HAVE ALLERGIES:

- No more coffee mugs, please :)
- Nothing with chocolate & mint together
